

2010 Therapeutic Garden Design Team Workshop

Monday, March 22, 2010 or
Monday, October 4, 9:00 – 4:00

Legacy Good Samaritan Hospital Auditorium
and the award-winning Good Samaritan Hospital Stenzel Healing Garden

A workshop to study and implement therapeutic garden characteristics, design elements, roles of the design team, facility team composition, therapeutic activities, garden care, and evaluation to support activity programs and rehabilitation therapies. Participate in design workshop activities. Begin the process to start planning a therapeutic garden for your site. Outline a timeline for garden design, fundraising and construction for gardens in health and human services.

Bring your questions, pictures of the area you are considering and if you are able area measurements.

Who?

- You and your team of 2 – 5 people. No team yet? Then come alone. Learn how to develop, facilitate and inspire the team.

Why?

- Build a garden design team at your facility.
- Focus on guiding/facilitating the interdisciplinary team.
- Learn a variety of tools and processes to help your team, facility or dept get on board to study planning processes and steps to create a successful rehabilitation and restorative garden setting.

What?

- Topics: planning process, team member roles, garden goals, site analysis, fundraising, phasing in garden over stages, job descriptions, budget, maintenance, and more.

What do Families Say?

“I feel the quality of this hospital is in part, the incredible human beings assembled to serve and heal mankind. This garden is the quiet place within a storm, a reminder of the creator of the heavens and the earth. Thank you, and to whomever the soul is who brought this garden to life, thank you.”

Objectives

1. Develop a multi-disciplinary design team for your site.
2. Describe the seven therapeutic garden characteristics.
3. Outline design elements to support PT, OT, SLP, RT, HT and activity program goals.
4. Describe a variety of cognitive, physical and social activities to support a range of client goals.
5. Identify roles and responsibilities.
6. Summarize POE and continuous quality improvement steps for evaluation of the setting and programming.
7. Outline draft one of steps for your facility.

Target audience

Therapists, designers, managers, activity professionals, volunteers, social workers, nurses, leaders, volunteers, students and facility staff.

Instructors

Brian Bainnson, ASLA
Teresia Hazen, MEd, HTR, QMHP
Other Legacy Health staff TBA
